THE CHICAGO DAILY TRIBUNE

IS PUBLISHED EVERY MORNING AND EVENING (Sunday excepted)

BY HENRY FOWLER & CO

at Tribune Buildings, No. 53 Clark street, next door South of the Post Office.

TERMS OF SUBSCRIPTION

[illegible]

THE CHICAGO TRI-WEEKLY TRIBUNE is published Tuesday's, Thursday's and Saturday's, in time for the earliest Morning mails. It is of the same size with the large Morning Daily and contains all the reading matter of two days. It is an excellent edition for residents in the country. It will be furnished to mail subscribers at the low price of $4.00 a year in advance.

THE CHICAGO WEEKLY TRIBUNE contains all the valuable reading matter of the Daily, comprising the latest intelligence by Telegraph and the Mails, Market Reports, Literary Reviews, one choice Story each week, and excellent [illegible] articles, and furnishes more reading than the large sheet of the New York Weekly Tribune. It is published every Friday at the low price of $2.00 a year in advance. Ten copies to one address $15.00. Twenty Copies to one address $25.00.

NEW AND VALUABLE DISCOVERY.
Great Improvement in Artificial Teeth.
DR. J. A. KENNICOTT, No. 56 Lake street, having purchased ALLEN'S PATENT IMPROVED METHOD OF SETTING MINERAL TEETH, takes pleasure in offering to his patrons a REAL and SUBSTANTIAL IMPROVEMENT, which only needs to be examined to be appreciated, and unqualifiedly approved. The advantages of this invention are Perfect Cleanliness and freedom from any metallic or other unpleasant taste, great strength, lightness and durability. The teeth are secured to the plate by means of a strong mineral cement, which forms a perfect union of the teeth and plate, and an EXACT IMITATION OF THE NATURAL GUMS, giving a life-like appearance that it is impossible to obtain in any other way. For references, see medals and diplomas awarded to Dr. K. as premiums for the Best Dental Mechanism, also, specimens of work at the office, No. 56, corner of Lake and Dearborn streets, near the Tremont House. jy27

SOMETHING NEW.
A VERY great and decided improvement in the science of Dentistry, at Dr. W. H. KENNICOTT'S Office, need only be seen to be properly appreciated by any one who ever wore artificial teeth. One of the great points gained in this invention, is the entire union or fusion of the plate with the teeth, so that the whole is one entire piece, smooth as a china cup and as easily cleaned, there being no space anywhere for food to find a lodgment, consequently no offensive taste or odor will obtain from their use.
Wm. H. Kennicott having obtained Dr. Allen's patent and all course of instructions from Dr. Taylor, of Cincinnati, is now prepared to offer a real improvement to the public. Office—132 Lake Street. jy1

DENTISTRY.
DR. H. K. KELSEY, Surgeon Dentist, would tender his thanks to the citizens of Chicago and vicinity, for the liberal patronage extended to him, and by close application to his profession, would solicit a continuance of the same. All operations performed in a satisfactory manner or no pay. Particular attention given to the insertion of Full Sets of Teeth; and all persons desirous of supplying themselves with Artificial Teeth, would do well to give Dr. K. a call at 129 Lake street, over Messrs. Bamber & Co's store. no3ly

MASSA'S IN DE COLD GROUND.

Round de meadows am a ringing
De darkie's mournful song,
While de mocking bird am singing,
Happy as de day am long.
Where de ivy am a creeping,
O'er de grassy mound,
Dare ole massa am a sleeping,
Sleeping in de cold, cold ground.

CHORUS: Down in de corn-field,
Hear dat mournful sound;
All de darkies am a weeping,
Massa's in de cold, cold ground.

When de autumn leaves were falling,
When de days were cold,
'Twas hard to hear ole massa calling,
Cayse he was so weak and old.
Now de orange tree am blooming
On de sunny shore,
Now de summer days am coming,
Massa nebber calls no more.

CHORUS: Down in de corn-field,
Hear dat mournful sound;
All de darkies am a weeping,
Massa's in de cold, cold ground.

Massa made de darkies love him,
Cayse he was so kind,
Now dey sadly weep above him,
Mourning cayse he leave dem behind;
I cannot work before to-morrow,
Cayse de tear drop flow,
I try to drive away my sorrow
Picking on de ole banjo

CHORUS: Down in de corn-field,
Hear dat mournful sound;
All de darkeys am a weeping,
Massa's in de cold, cold ground.

A LITTLE LECTURE.

Address to My Dears, by an Old Maid of the World.

"My dears. Love is like chancery; it is a deal easier to get into it that to get out again.—There are thousands of ways for the former, but as for the latter it can't be done noways.

"Take my advice, my dears—never believe a man before marriage, and never trust him afterwards.

"If men, my dears, were to pay like servants, for every thing they broke, they would'nt be so fond of breaking their hearts for every pretty girl they saw. The fortune of a Rothschild could'nt stand my dears, against such a ruinous amount of breakages. Why, I have known a man's heart break as often as an American bank, and yet he would open the next day with the same brass plate on his face, on which you could plainly read 'assurance,' and his heart would go on issuing the same false notes as before. Besides what becomes of all their broken hearts, I should like to know? Where do they all go to? Along with the old moons, I suppose; or they may be keeping company, there's no knowing where, with all the pins that are lost, each heart being stuck through with a pin, like the curious insects in a museum.

There's no need to tell you, I am sure my dears, about choosing a husband. A woman's instinct generally guides her in those little matters. But this I will tell you, that husbands differ as much as geese; but the softest mind is not always the worst. The softer your husband, the more pliable you will find him, and all the easier for you to twist him round your little finger. If husbands trusted more to their wives and less to themselves, there would be more happy marriages, but until they learn what is due to our sex and are fully prepared to pay it, that happy ballance will never exist in a household which to the husband, should be the source of as much care as a large balance is at his banker's; but at the present the wife is not allowed to have any share or interest in the one, or to participate in the other.

"I will conclude my dears, with giving you a few rules with regard to the choice of husbands in general, and though, my dears, I have never ventured on the stormy seas of matrimony," (there the fair lecturer's voice slightly trembled with emotion,) "still I have watched from the haven of single blessedness many of the squalls and breezes that have taken place on them, and have derived no small knowledge from the numerous shipwrecks I have witnessed in consequence of them; and this knowledge I am only not willing to impart to all those who are anxious to embark for the United States.

"I shall confine my observations, my dears, to the small circle of my experience of men, such as I have studied them round the tea-table.

"If a man wipes his feet on the door mat before coming into the room you may be sure he will make a good domestic husband.

"If a man in snuffing the candles, snuffs them cut, you may be sure he will make a stupid husband.

"If a man puts his handkerchief on his knees while taking his tea you may be sure he will be a prudent husband.

"In the same way always mistrust the man who will not take the last piece of toast of Sally Luna, but prefers waiting for the next warm batch. It is not unlikely he will make a greedy selfish husband, with whom you will enjoy no 'brown' at dinner, no crust at tea, no peace whatever at home.

"The man, my dears, who wears goloshes and is careful about wrapping himself up well before venturing into the night air, not unfrequently makes a good invalid husband that mostly stops at home, and is easily comforted with slops.

"The man who watches the kettle and prevents its boiling over, will not fail, my dears, in his marriage state, in exercising the same care in always keeping the pot boiling.

"The man who does'nt take tea, ill treats the cat, takes snuff, and stands with his back to the fire, is a brute whom I would not advise you, my dears, to marry on any consideration, either for love or money, but most decidedly not for love.

"But the man who, when the tea is over, is discovered to have had none, is sure to make the best husband. Patience like his, deserves being rewarded with the best of wives, and the best of mother-in-laws. My dears, when you meet with such a man, do your utmost to marry him. In the severest of winter he would not mind going to bed first."

[Here the lecturer concluded, and the several young ladies retied to their respective avocations.]

STATE OF NEW YORK, CANAL COMMISSIONER'S OFFICE, ALBANY, June 21, 1852.
Messrs. E. & T. FAIRBANKS & CO.—Gents.—Your favor of the 18th, asking my views of the Weigh Lock Scales manufactured by you, and introduced upon the Erie Canal, is duly received.
"In the report of the Canal Commissioners, submitted to the Legislature 1st of January last, I took occasion to express my satisfaction with your Scales, and have since seen no reason to change my mind.
I have no hesitation in saying that they have fully answered your recommendation in every particular. Their capacity for strength is fully equal to sustain the required burden—they are not liable to get out of order or repair—the arrangement of the Weighing Beam is admirably adapted to obtain rapid results. I know of no Scale superior to them in this or any other country.
In great haste, yours truly,
JNO. C. MATHER, Canal Commissioner.

REMOVAL AND CHANGE.
IMMENSE AND ATTRACTIVE STOCK.
MORRIS L. HALLOWELL & CO.,
PHILADELPHIA.
HAVING removed into their splendid new Warehouse, entrance Nos. 147 Market, and 21 North Fourth sts., are opening for the spring trade an assortment of
SILK AND FANCY GOODS,
that for extent and variety will surpass any stock ever offered in that market. Entering into their new store, which is one of the largest in America, with a business of an unusual amount already established, and intending largely to increase it, especially with those who buy FOR CASH, and believing that the fairest system in jobbing goods is to have *uniform prices* they will be compelled to sell at much smaller profit than can possibly be afforded where long credits are given.
Under their cash and short credit system the necessity for charging large profits, does not exist, and by selling their goods at a very small advance on the foreign cost, they mean to make it the interest of every judge of goods to buy upon the following terms:
CASH BUYERS will receive a discount of SIX per cent if the money be paid in par funds, within ten days from date of bill.
Uncurrent money will only be taken at its market value on the day it is received.
To merchants of undoubted standing a credit of SIX months will be given if desired.
Where money is remitted in advance of maturity, a discount at the rate of TWELVE PER CENT. per annum will be allowed.
They ask from merchants visiting the eastern cities, the favor of an examination of their stock, being satisfied that they will be convinced that it is not for their interest to pay the large profits that are absolutely essential to those who give long credits.

NEW AND IMPROVED
Sewing Machines.
THE AMERICAN
MAGNETIC SEWING MACHINE COMPANY
Now offer for sale at their Rooms,
397 BROADWAY, NEW YORK,
By far the most perfect and valuable Sewing Machine that have yet been invented.
The public are respectfully invited to call at the Rooms of the Company, and examine the operation of the most superior machine ever presented to their notice.
It is the result of three separate inventors, each of whom distinct in himself, claims originality. The first of whom is ELIAS HOWE, the first inventor of Sewing Machines, who introduced the shuttle movement, without which the machine is comparatively useless. The next was THOMSON, who adapted the machine to certain portions of tailors' work, and Mr. COON, by means of the peculiar formation of the shuttle combined with other recent improvements of his own invention, has made a machine capable of doing any and all work that can be effected by means of the needle. The machine now offered for sale presents the following distinct and peculiar features:—
1st. Its extreme simplicity in construction, and is no way liable to get out of order.
2d. The stitches are uniform, perfect, and present a beautiful appearance, never before attained by any machine.
3d. The sewing done by this machine is never liable to rip or ravel—a frequent cause of complaint heretofore from those owning machines of a different character.
4th. Any and all kinds of work can be done on this machine with equal facility—silk, linen, cotton, or woolen fabrics and leather, each present the same beautiful appearance.
5th. By means of friction rollers the thread can be made tighter or loose upon the cloth, at the will of the operator.
6th. The length of the stitches can be graduated with mathematical exactness by the operator, from the fine and delicate stitch requisite in shirt making, to the coarse collars, ornamental work, &c., up to the coarsest stitch taken in sole leather, etc.
7th. The finest curvatures can be worked, and beautiful designs of flowers, baskets of fruit, representations of beasts, birds, &c., can be as elegantly and elaborately worked by the aid of this machine, as by the most skilful needlewoman in existence.
The American Magnetic Sewing Machine Company have determined to sell the best Sewing Machine in existence, and have succeeded beyond their most sanguine anticipations. The speed of this machine is also a great feature that must secure the attention of the purchaser. It will take with ease *Five Hundred stitches per minute!*
For further information please call at the Rooms of the Company, or address the Secretary at the Office, 397 Broadway.
Ossian G. egort, Sec'y. JAMES T. AMES, President.

Durkee's Celebrated Chemical Yeast or
BAKING POWDER.
THE cheapest, healthiest, most useful and economical article for Raising Bread, Biscuit, Fried, Griddle and Johnny Cakes, Pastry, Puddings, Sweet Cakes, Corn Bread, &c., ever invented.
This is the most economical, useful convenient and healthy compound in existence, for raising bread, biscuit, cakes, pastry, puddings, &c., from any kind of Wheat, Rye, Indian or Buckwheat Flour. It is an indispensable article in the culinary departments of every household establishment, and there is no Cook or Housekeeper in creation who will be without it after having fairly tried it. Sold by the principal Grocers and Druggists.
OPINIONS OF THE PRESS.
Those who have tried it, have found that the advertisement does not vaunt its praises too highly.—Tallahassee Floridian and Journal, Feb. 18, 1853.
Housekeepers who have tested the quality of this Powder, pronounce unanimously in its favor.—Lockport Daily Courier.
It surpasses everything in the shape of rising, we have ever yet seen used in the baking of cakes.—Rahway Advocate and Register, April 15, 1853.
This is an article of such utility in various kinds of cookery, that when its virtues become properly known, no housekeeper that studies comfort and economy, will willingly do without it.—N. Y. Pick, May 18, 1853.
No one need hesitate to use Durkee's all important article in housekeeping.—Republican, Banner & Nashville Whig, Feb. 17, 1853.
Would you have light bread, sweet bread, bread that you can eat with a good relish, do not forget to procure Durkee's Baking Powder, and you will not fail to have good bread, cakes, &c.—Troy Daily Times, May 24, 1853.
We have tried this article, and can recommend it with perfect confidence.—Quebec Gazette, July, 1853.
Durkee's Baking Powder we have tried at our house, and our "better half" was satisfied at the result.—N. Y. Daily News, Oct. 21, 1853.
All good housewives will rejoice in and glorify the name of Durkee, after they have given his Baking Powders a fair trial.—N. Y. Sun, Sept. 30, 1853.
Durkee's Baking Powder is undoubtedly the best article for this purpose that has yet been discovered.—N. Y. Dutchman, Feb. 12, 1853.
Highest recommendations, from hundreds of the largest and most respectable wholesale houses in this, and nearly every large city on this Continent, could be given if space allowed it.
The article is warranted to give satisfaction. Orders accompanied with cash will be promptly filled.

BRADBURY'S
PIANO AND MELODEON WAREROOMS,
NO. 423 BROADWAY, NEW YORK.
FROM enlarging my Warerooms, I am enabled to keep a much greater assortment of Instruments than heretofore. All Pianos furnished are of an elastic touch, and of an even quality, and deep, full, rich and purely Vocal tone, qualities most desirable, inasmuch as the voice will assimilate to the tone of the instrument. All my instruments are fully warranted, a guarantee accompanies every bill of sale. All are sold as low as can be purchased elsewhere. Second hand Pianos at all prices.
A NEW INVENTION.
The Organ-Melodeon, with Two Banks of Keys, the only thing of the kind in the country, having Two Stops, Coupler, and Sub-Bass, &c., a sweet and powerful instrument, preferred by Organists to be superior for churches or Organ practice, to the medium sized Organs, price $300. Also the common melodeon of all styles and prices. Being the exclusive Agents for these Instruments, orders are solicited. The usual discount made to the trade, and 10 per cent to clergymen purchasing for their own use.

THE NEWS.

The news from Washington to day is of but little interest.——The steamer Eagle was burnt on Monday last with 13[illegible] bales of cotton.——The Erie disturbances still continue. The track was laid again on yesterday, when, such was the excitement of the citizens that Mayor King ordered it to be torn up again. It appears that even the Governor stands in fear of the mob.—Nothing but "a little more grape" will quiet the rascals, we fear. The passenger trains now run regularly, changing at Erie.——Another arrest of a fugitive slave has been made near New York. Mr. Cass says he regrets the introduction of the Nebraska bill, *but he must vote for it.* Party ties are still strong with the old man.

INTERESTING FROM SOUTH AMERICA.

By the arrival of the steamer Ohio, at New York on the 29th ult., we have some very interesting intelligence from South America. The rumors of revolutions in Bolivia and Peru are confirmed. In the former country the administration of Gen. Belzu has been deposed, and the revolutionists have taken the management of national affairs into their own hands. In Peru the insurgents accuse Gen. Echenique of inexcusable procrastination in the settlement of the difficulties with Bolivia, and declare their determination to compel him to abdicate. They are believed to be in possession of about half a million of dollars, which will most likely enable them to carry their intentions into operation.—On the other hand, we have a pronunciamento from Gen. Soane, which avers that Echenique's policy was becoming more popular every day.

By the way of New Granada we have received accounts of the progress of the Darien surveying expedition, together with the startling announcement that a portion of the party belonging to the English ship Virago have been massacred by the Indians.

FROM AUSTRALIA.

By the latest arrivals from Australia we have information of an event which may prove to be somewhat important in its future result. It is stated that a French Admiral stationed in the Pacific, has formally taken possession of the island of New Caledonia, in the name of Napoleon III—thus unexpectedly nipping in the bud the schemes of the English for converting this island into a new convict settlement. The first intimation given to the Australians of this extraordinary proceeding, was by the arrival of a vessel chartered by the French commander to obtain supplies for Louis Napoleon's new naval station. New Caledonia is among the islands discovered by Capt. Cook, and although considered as legitimately belonging to Great Britain, the natives have hitherto been permitted to retain quiet possession of it; they being only occasionally visited by English vessels, the owners of which had, we believe, a few trading posts among them. It is described as one of the richest and most fertile of the Polynesian group, and being the nearest country to the Australian coast is of course of great importance as a commercial depot in that portion of the globe. The inhabitants of Australia were in the greatest state of excitement on the subject, at last accounts.

THE BOUND LABOR OF THE UNION.

A pamphlet bearing this title has been lying on our table for several days. The author of it, in a note which accompanied it, requests "an earnest examination and a kind recommendation" of his work. We have given it the "earnest examination," but we are forced to deny the "kind recommendation." The author, who is a *Mr. M. A. Jaye*, has attempted to do what many writers before him have failed to accomplish; what Jefferson and Clay, and Webster and Calhoun could not bring about; what novel writers and poets, residents and travelers, philosophers and preachers have failed to do; that is, by exhibiting the bright side of the slavery system, and enforcing the fact that the African race in this country are far more intelligent, refined and happy than their ancestors in Africa were, to convince the public mind that Slavery is right, and that human flesh is a merchantable commodity. As a matter of course, the writer has failed in accomplishing his end, and his pamphlet of forty-two pages will only remain as a testimony of how vain is the attempt to make a cruel wrong bear the garb of justice and right, by isolated examples and threadbare syllogisms.

MR. BAKEWELL, OYSTERS AND CHAMPAGNE.

The interesting gentleman who lectured in this city a short time ago, on the vast superiority of civil and religious freedom in Austria over that which we enjoy in America, has returned to his home in St. Louis. He gives a very faithful account of his visit to the Garden City, and frankly tells his readers, in the last number of his *Shepherd* that his audience in Chicago, *hissed him.* We are very sorry that our citizens were so unmannerly. It appears, however, that he found some Samaritans among the Levites and Priests. Some excellent and generous friends mollified the wounds of public contempt by giving Bro. Bakewell, (he says it in the *Shepherd*,) a "champagne and oyster supper." Mr. Bakewell is an *Englishman* and knows what to do under such trying circumstances. The quondam lecturer, however, is apparently disquieted with traveling, and wishes he had not come to Chicago. He comes home and his heart overflows on seeing once more the steeples and domes, and the eternal smoke that overhangs St. Louis, and, says he in an ecstasy, St. Louis is *"the Rome of the United States!"*—We rejoice to hear it. We had feared that Chicago was reserved for that undesirable distinction.

A RARA AVIS.

The Wisconsin *State Journal* says there is a Democratic editor in Wisconsin who dares to say that his soul is his own. We rejoice to record it. Some good may yet come out of Nazareth. An instance so unprecedented, is worthy of general notice, and we hope the people throughout the country will not fail to record the fact. The individual is none other than the editor of the Ozaukee *Times.* After noticing the introduction of the bill to organize Nebraska into the U. S. Senate, by Senator Douglas, he says:

> This Senator Douglas, it will be recollected, we supported as a candidate for the Democratic Presidential nomination in 1852. Our cheek tingles with shame at the remembrance that we ever, in the most remote degree, assisted to add to the political prominence of so servile a doughface.

Every day more and more confirms us in the belief that Senator Douglas has made a fatal mistake in the introduction of this bill. He doubtless thought it would be a good move towards the Presidency in 1856. But he has underrated the force of public opinion, at least in the North. The Northern papers which dare to support his Nebraska Bill are few and far between. Even his own particular organ in this city, deserted him on yesterday morning, and if he does not soon make a recantation of his recently avowed sentiments, the star of his political aspirations will set *forever*, in darkness and disgrace.

CAPT. WALKER AND THE FILIBUSTERS.

By the latest accounts from Lower California it appears that President Walker, having been relieved from his embarrassing position at Encinado, was once more carrying all before him.—He had been strongly reinforced, and his command was in fine spirits.

☞ It appears by the official returns, that the oldest man who marched up to the hymenial altar in the State of Massachusetts last year, confessed to seventy-[illegible] years, but two brides there were whose [illegible] eighty [illegible] each. The youngest girl who blushed and said yes to the question, [illegible] she would "love, honor and obey" a husband, had seen the roses of only fourteen summers bloom, while the youngest boy whose marriage is recorded in the tables was eighteen.

THE SLAVE TRADE IN CUBA.

Although England, France and the United States have repeatedly declared that the slave trade is piracy, and have pretended to use every means in their power for its suppression, it is useless to conceal the fact that the traffic has been carried on in the Island of Cuba, during the last five years with great vigor and with unblushing audacity. The present state of Cuba is an outrage on Christianity, and a disgrace on the age in which we live. In violation of the most solemn treaties, thousands after thousands of slaves have been taken from Africa to that island. The rapid increase of the agricultural products of Cuba has required a vast increase in the number of her laborers, and they have been furnished. Within the last ten years no addition has been made to the population of free laborers in the island, but during this period her production of sugar has risen from 150,000 to 300,000 tons. In the introduction of the stolen laborers necessary to effect this increased production, all considerations of humanity have been neglected. If we are to believe the best authenticated reports which reach us from that island, the scenes daily enacted there, during the busy season, are unexampled for barbarity and horror. No respect is paid to sex, age, or bodily condition. As to labor, twelve, fourteen, and even eighteen hours a day of work are extorted by means of the lash from these unhappy creatures; they are kept and herded together in barracoons or barracks unfit for human habitation; they are driven like oxen to and from the fields and mills; they are fed on salt fish and dried junk; they are denied all instruction and education; and in a country professing Christianity they are allowed to die as if they were beasts of the field. Large numbers are held in servitude who were liberated by British interference. And even now, when the indignant shouts of Europe have partially checked the African traffic, expeditions have gone from this accursed island to the nearer shores of Yucatan, and then carried off to slavery the native Indians of that Mexican province. In Cuba the crown of Spain has 25,000 troops; around its shores it has a navy numbering more than thirty vessels of all sorts; to a large part of the inhabitants—to the Creole population generally—the slave trade is hateful. Its government has in this army, fleet, and popular opinion, ample means of its own for stopping this slave trade. It would have had the moral support of its choicest subjects to suppress the traffic. Yet, in the first six months of 1853, under Canedo's rule, more than 9,000 Africans were introduced; and, when upbraided with the fact, all that it has to say in its defence is one word—"Calumny."

Recent statistics have fallen into our hands, which have led us to the foregoing remarks. According to these figures we have arranged the following table, which shows what has been done in slavery since 1849. It presents a state of things which we were unprepared to contemplate, and which must make sad the heart of every friend of humanity.

There have arrived in Cuba, negroes from Africa, as follows:

In 1849, by 20 vessels	6,575
" 1850, by 7 vessels	2,325
" 1851, by 7 vessels	3,687
" 1852 to 1853 to August 1, 1853	14,500
Omitted in previous report by the brig Hanover at Sierra Morena	650
At Buracoa	400
At Ensenada de Brou, south side, near Trinidad, in Sept., per brig Amante (Spanish)	630
At Ensenada de Cochinos, October, per schooner Maria Juana (Spanish), subsequently burned	180
At Ensenada de Carmele (name of vessel not given) in October	260
At La Palomo, October 15	320
Total	20,497
Add one third more, which will not cover the number that escape British investigation	9,832
Add also for losses in pursuit, and kidnapping; for deaths on the passage; for want of air, food, and water	4,200
And there will be a grand total of	43,529

THE TONNAGE DUTIES AGAIN.

The St. Louis *Democrat*, an able and *consistent* Democratic paper, does not labor under that unfortunate disability and unwillingness to speak, which characterizes the *Democratic Press* of our own city. The former sheet has no hesitancy in giving its views upon matters of public moment, and does not always stop to inquire whether if it does so, the feelings of some tender hearted patron will not be injured. In its issue of the 30th ult. there is an excellent leader in opposition to Senator Douglas' proposed Tonnage Duties scheme. It bases its opposition chiefly on the unconstitutionality of the measure. It quotes from the Constitution of the United States the following article:

> "No tax or duty shall be laid on articles exported from any State. No preference shall be given by any regulation of commerce or revenue, to the ports of one State over those of another; nor shall vessels bound to or from one State, be bound to enter, clear, or pay duties in another." Con. U. S., Art. 1, Sec. 9, clause 5.

The foregoing is clear, explicit, and without qualification of any kind. It appears to have been overlooked by Mr. Douglas, who bases his whole argument upon the second clause of the tenth section of the same article. It is as follows:

> "No State shall, without consent of Congress, lay any imports or duties on imports or exports, except what may be absolutely necessary for executing its inspection laws; and the net produce of all duties and imports laid, by any State on imports or exports shall be for the use of the treasury of the United States; and all such laws shall be subject to the revision and control of the Congress. No State shall, without the consent of Congress, lay any duty of tonnage, keep troops or ships of war in time of peace, enter into any agreement or compact with another State, or with a foreign power, or engage in war, unless actually invaded, or in such imminent danger as will admit of no delay."

The *Democrat* thus continues:

> Of these two provisions, placed so near each other in the constitution, it is manifest that the first imposes a restraint upon the powers of Congress, and has reference to commerce between the several States. The latter restrains the power of the States, and bears upon the foreign commerce of the country. Upon any other supposition, we must impute to the framers of the constitution the folly of having inserted in it, two clauses destructive of each other. Mr. Douglas adduces several instances of the power of levying tonnage duties having been exercised by the States, with the consent of Congress, but in every case, the States so exercising it were seaboard States engaged in foreign commerce, and we venture to say that in no instance has commerce between the States been subjected to such burthens. But suppose it were otherwise, and that commerce amongst the States should be made to bear the weight and the odium of impost exactions, what possible benefit could Mr. Douglas' plan derive from them? By the express language of the constitution, "the net produce of all duties and imports laid by any State on imports or exports, shall be for the use of the treasury of the United States." The produce being once in the treasury of the United States, would, in all probability be as unavailable for any purposes contemplated by Mr. Douglas, as is the surplus revenue already there.—We should have the mortification of seeing that treasury filled to overflowing with our self imposed exactions, and still labor under all the inconveniences we now suffer.
>
> And even were there no constitutional objection in the way, we should still be opposed to Mr. Douglas' plan for raising funds to improve our Western harbors and rivers. We of the West bear our full proportion of the enormous outlay annually made for the convenience and safety of our foreign commerce. The benefits of these expenditures have hitherto been enjoyed nearly exclusively by our seaboard brethren, whose commerce is mainly based upon agricultural products of the West and Southwest. Simple justice requires at their hands a policy, as liberal towards us as we have thus far extended to them. To ask us, in addition to the burthens we already bear in common with the whole Union, to impose still heavier upon ourselves, in behalf of a commerce not exclusively our own, is neither justice in itself, nor does it partake of Western spirit.

Bold Christian.—That passage of the New Testament wherein it is recommended that if thy adversary smite thee upon one cheek, turn unto him the other also, was expounded by Joe Smith the Mormon founder, to mean just this: "A man may strike you at first under a mistake, or without intending any harm, and you ought not to strike back immediately, but turn the other cheek, and give him an opportunity to explain, or if he is in earnest, to repeat the offence.—However, you need not turn a third time, but if a man strikes you twice, then pitch into him like a thousand of brick."

For the Chicago Daily Tribune.

To the Editor of the Tribune:

Sir:—In perusing one of your city papers of to-day, my attention was arrested by an editorial notice in relation to the Lake Superior mines, and the trade connected therewith. The writer assumes the ground that the business of that section of country is of very great importance to the city of Chicago. This all may be true, but it seems to me that it depends upon many contingencies whether the business of that vast region of country can be made to advance the interest of the Garden City. If we act upon the suggestions of that paper, and build furnaces in Chicago to smelt the ores of the Lake Superior county, we should be as much at fault as the Paddy's water power, that lacked water—we should lack the charcoal necessary the drive the blast furnace; and the capitalists of other cities who have invested their capital in mining operations in that district of country, well understand this matter. Instead of transporting their ores to distant cities to be smelted, they have commenced building furnaces where they find the ore, and the necessary fuel to keep the furnaces in blast. It costs not any more to transport a ton of copper or iron, after it is manufactured and ready for market, than it does a ton of ore, and the expense of manufacturing at the mines, where the ore, the fuel, and the water power exists, must be much less than in our cities, where we have none of those advantages. That the business of the Lake Superior country may be made to advance the interest and wealth of Chicago, I do not pretend to deny; but it must be in some other way—through some other channel than that suggested by that paper. That commercial mart that can offer the most direct, and the greatest facilities for doing business with that section of our country will be the most benefitted thereby. Chicago has the advantage over every other point that lays any claim to the business of that country; but what will this advantage amount to if not improved? Water communication with that country will not do for Chicago; Buffalo and Detroit are aware of it. They are looking to the bands of iron that are to bind them to that country—one by the way of Grand Haven, Milwaukee, and Green Bay; the other by Lake Simcoe, and the Saut. Both of the above named routes are greatly inferior to a route that might be had through Central Wisconsin. We will take, for example, the Chicago and Central Wisconsin road running to Elkhorn in Walworth county, thence to Whitewater; thence to Fort Atkinson; thence to Columbus, in Columbia county; thence to Bluffton, Marquette county; thence to Berlin; thence through on the dividing ridge between the Wolfe and Wisconsin rivers to the Lake Superior mines. This route to that country has advantages over any route that has ever been suggested, not only on account of its directness but its feasibility, and the cheapness of building such a road. There is not a mile of said road but would pay—running through, as it would, the best and richest portion of the State of Wisconsin.

This communication has been made from a perfect knowledge of the facts as herein stated, and if it in any way conduce to advance the interest of those most concerned in this matter, I shall have obtained my object.

Yours Respectfully, M. P. H.

[We have several times urged the importance of this route upon the citizens of Chicago, and, we are pleased to say, not without effect. The road to the Illinois line will be completed during the ensuing Summer—the first part to Elgin being the G. and C. U. R. R., and thence North to the line, the Fox River Valley Road. On Wednesday, contracts were let for grading and bridging the first sixteen miles, in Wisconsin, extending to Elkhorn, under the name of the Wisconsin Central Railway Company. Several of our citizens are stockholders and directors in this company, and we have no doubt the work will be pushed forward rapidly as soon as the sections at present under contract are finished. After the present year, during which nearly all of the Chicago Railroads under progress will be finished, the capitalists of our city will, without doubt, push forward the Wisconsin Central, and we shall be very much mistaken if, within three years from that time, the city of Chicago is not connected by railroad with the mines of Lake Superior on the route designated by our correspondent.—Ed. Tribune.]

PERU, ILL.—NORTHWESTERN UNIVERSITY.

Location of Peru—Scenery—Its rural aspects—Business facilities—Business men—Scholarship in the Northwestern University—Church extension.

Mr. Editor:—Are you intimately acquainted with Peru? If not, let me introduce you. And if this is done to the satisfaction of either of us, you must go with me over the entire town.—Unless you make up your mind to this, you will think that you have found the *pretty spot* before you are in sight of it, and will be stopping to define your lot and the site of your habitation.

This town is on a high bluff on the Illinois river, at the head of steam navigation; and the scenery which spreads out in the distance is extended and beautifully varied. Its immediate sight is interspersed with hill and glen, and deep ravines, and portions of land shooting out like promontories, and affording some of the most beautiful sites for residences imaginable.—From these points you overlook a considerable part of Peru, LaSalle, the river, the opposite bluff "Starve Rock," and a thousand objects which fill the picture and complete this enchanting view; and it is constantly varied at small distances as you walk through the town. The population is something over 4,000, and instead of being dense or crowded, it spreads over an extent which leaves many beautiful building spots unoccupied.

The general air is emphatically rural. Large native oaks are scattered through the town, while the suburbs are covered with the undergrowth of the "openings." And in this shrubbery you may find neat little cottages, stacks of hay, the tinkling cow bell, the fluttering poultry in frolicsome glee, and all the little witcheries and charms of country life, in immediate proximity with the advantages of the town. To speak of fine residences, would be to call attention to what does, or may exist elsewhere. But the novel scenery and lovely prospects which attend at every step, are charms which neither wealth nor art can produce. It is moreover one of the most accessible points in the whole State. Beside the river navigation, railroads center in here from East, West, North and South. And it is said that more grain is brought here than in any other point of the State, Chicago excepted, and a wholesale trade is carried on which supplies a considerable extent of surrounding country. The inquiry was frequently in my mind, whether the citizens of this place are fully aware of the advantages of their location. I am certain, however, that the most of the men here are those who never settle anywhere by accident.

The business men are nearly all young, or in middle life; and the most of these are frank, prompt and social. And their character as citizens and men of intelligence may be inferred from the fact that they purchased *three thousand and one hundred* dollars worth of scholarships in the Northwestern University, and yet a larger number will be sold here. This needs no comment. It speaks for itself. And it will be seen that there is no chance for me to take credit to myself in this matter when I add that such men as Messrs. Day, Harmon, and Coats, gave to this work their influence and hearty co-operation.—How welcome are such spirits, after having met with a boyish shyness, even on the part of some business men, as though they must manifest superior adroitness and caution in respect to an enterprise, toward which men among the most intelligent in the State have donated their thousands so freely.

In addition to a church edifice already in process of erection, they are raising a subscription for *another*, which they intend shall not be inferior to anything in this part of the State. Of course, there must be no failure in this. My only surprise is, that it has been neglected so long.—Such an edifice on such a site as the one selected will add much to the town. More might be said concerning both the social and commercial advantages of this place. But suffice it to say that this same Peru offers strong inducements to business men, as well as a lovely retreat to those who would retire to enjoy life.

JOSEPH HARTWELL.

ILLINOIS MAINE LAW ALLIANCE.

The friends of a Prohibitory Liquor Law, from all parts of the State, are invited and requested to attend the session of the Illinois Maine Law Alliance, which will be held in this city on the 22d of Feb., commencing at 10 A. M.

This Association was organized on the 7th and 8th of last month, at Chicago, and it was made the duty of the President, in the event of an extra session of the Legislature, to call a meeting of the Alliance at this city sometime during the session. In compliance with that duty, the President has called a meeting at the above mentioned time.—*Western Leader, Springfield.*

GENERAL THEATRICAL INTELLIGENCE.

Mr. Neafie.—The Louisville *Democrat* of the 25th thus speaks of this gentleman's *Virginius*:

> We have never seen such a powerful representation of the Roman father's character as Mr. Neafie gave last night to a large and appreciative audience. There was sublimity in his every word and tone, and commingled in his daughter's presence with a tenderness unsurpassed. The awful silence of death's own presence enchained the audience as the curtain fell upon the closing scene. Last night's performance stamps him one of the most powerful actors of the age, if he was not equal to any other character.

Mr. Couldock. This very talented actor and exemplary gentleman is now playing in Buffalo with remarkable success. We are gratified to state that the next season at our Theatre will open with Mr. Couldock as Star. He will certainly play an excellent engagement. The season opens on the 18th inst., by the stock company, and Mr. Couldock's engagement commences on the next Monday.

Mr. and Mrs. W. J. Florence, having closed a very brilliant engagement in Louisville, are now starring it in Cincinnati. The denizens of the Queen City have as yet presented them with neither diamond ring or silver pitcher, but they give them what is better, crowded and paying houses.

Dan Rice is in New Orleans. Mad. Tournaire and M. Benoist are the stars of the circle.

Sandford's opera troupe gave a concert in Petersburg, Va., on Monday evening.

Mrs. Duffield's acting is attracting attention in Washington City.

Miss Charlotte Cushman, the actress, was at the latest dates playing at Liverpool.

Manager Bernard, of the Nashville Theatre—now closed—has been engaged at the National, in Cincinnati. Mrs. Bernard is in New Orleans and quite a favorite there.

The San Antoni Texan gives quite a lively idea of theatricals and music, there. Circus riders and Ethiopean Serenaders are delighting the citizens.

Charlotte Crampton was giving Shakespearian readings in St. Louis last week.

☞ It appears that Saturday and Sunday last were the coldest days of the season in and near New York. The ice formed in such large cakes in both the North and East Rivers that it was with the utmost difficulty that even the ferry boats could force their way from one shore to the other. Indeed, several of these boats were so badly crippled that they were compelled to lay by for repairs. Various sailing vessels have been greatly damaged by the ice—among them the clipper ship Grapeshot, which was loaded and ready to leave for Australia, had her bows stove in and was sunk.

☞ The small pox is prevailing at Terre Haute. The *Prairie City*, of Thursday, says:—"It is useless and criminal longer to attempt a denial of the fact that the small pox exists in the city at the present time. We have been credibly informed this morning, that at three different places in this city exist fourteen cases of this disease. The first was brought here by a passenger on the Indianapolis train, and from that time it has continued to spread. The authorities of this city have refused to take the matter under consideration, and it remains for the citizens to use such means and caution as the case seems to demand. The present case is another instance in which a city hospital or pest house would be of incalculable benefit."

Classification of Palates.—It is affirmed in Washington that the late M. Bodisco had a sovereign contempt for the people's representatives, and that while he always kept good champaigne for his fellow diplomatists, and treated them most hospitably, he kept an inferior sort for senators, and his butler used to amuse himself by calling it "Senatorial wine."

☞ The Grand Lodge of Indiana are about to put up a splendid Hall in Indianapolis. They have purchased an excellent location for $6,000, and have the contract made for the building a $38,000. The stock is nearly all taken, and it is believed the building will be completed in a short time.

☞ Mrs. Washington, the accomplished lady of the present proprietor of the Mount Vernon Estate, on Saturday night presented her delighted husband with the first male child ever born in the Washington mansion. He should be adopted by Congress and named Hail Columbia.

☞ A Southern paper says that Miss Julia Dean has been offered $30,000 for sixty nights in California.

☞ The Cleveland *Herald* of Saturday publishes the following call, signed by a very large number of citizens:

NO VIOLATION OF THE MISSOURI COMPROMISE.

> The Merchants, mechanics and Citizens of Cleveland generally, without distinction of party, who would preserve inviolate the Missouri Compromise, are invited to meet at the National Hall, Bank street, on Saturday Evening, January 28th, at 7 o'clock, to protest against the project now pending in the Senate of the United States for the repeal of that section of the Missouri Act which forever prohibits slavery in the territories lying north of 36 degrees and 30 minutes.

An Imposter.—The Cleveland *Herald* warns the people of the West against an imposter who gave his name as David Haitz, and who has been carrying on in that city and Baltimore a successful scheme of imposture. The *Herald* says:

> He professed to be a Bohemian Clergyman, flying from the Austrian persecution, and exiled solely on the account of his having preached the gospel to some Roman Catholics. In Baltimore, he obtained many subscriptions to a proposed publication on Prophecy, and, as we are informed, swindled an eminent Presbyterian Clergyman of that city out of $200. Here he professed to be an Episcopalian, desirous of engaging in Missionary work. He exhibited what purported to be Letters or Orders signed by a Bishop and three Presbyters of the city of Prague. He is well informed on all subjects; speaks English quite fluently, and exhibits the most surprising ingenuity in telling a well devised tale to excite sympathy. He professed to have a wife and four children dependant upon him of whose escape from Bohemia he gave most marvelous accounts.
>
> Clergymen throughout the South and West are especially warned against the unprincipled man. He ought to be arrested for obtaining money under false pretences. It is hoped that this notice will have a wide circulation, as it may save some benevolent men from wasting their money on one so utterly worthless. It is likely that he has gone to Cincinnati or Louisville, or perhaps to Chicago or St. Louis.

☞ The report of a correspondent of the New York *Tribune*, who wrote to that paper a description of the railroad festivities at Detroit, does not exactly tally with the observations of some clergymen from this City who, on returning home reported the entire company drunk. The correspondent is *W. E. Robinson*, the gentleman who recently lectured in this city. He speaks as follows:

> It were idle to attempt a description of the Hall inside, or the scene at the supper table.—You must imagine some two thousand gentlemen in one hall, all at supper, with eatables of all kinds in abundance, and champaigne so plenty and so polite that the bottles were opening themselves and popping the question, "Will you take me?" The Maine Law, now here in force, seemed to be overlooked. Yet do not misunderstand me—*I saw no person intoxicated.*

☞ The theatrical critic of the Cincinnati *Unionist* goes into extasies over the performance of Mrs. W. J. Florence. Hear his rhapsody:

> Her face is rather agreeable than beautiful, but her figure is absolutely faultless, and every motion is grace itself. Her *dancing* is *frozen* music set in motion. Such an ankle. Such limbs! Not exaggerated in size, not padded, but symmetrical, and so finely turned that the Grecian Phidias might drop his chisel in hopeless admiration of such exquisite delicacy, surmounted by a bust on which a Sultan might pillow his head.

We trust he feels better after that attempt.

The Railroad break at Erie cannot have cost the West less than half a million of dollars. And now, when the demand for breadstuffs in Europe has advanced the price of flour to $10 per barrel, the West is excluded from a participation in the rise. Verily the citizens of Erie, in this most wicked warfare upon the interests of whole States, are incurring a fearful responsibility.—*Albany Evening Journal.*

From the N. Y. Evening Post.

A FRAUD BEHIND A FRAUD.

The Albany *Atlas*, in discussing Douglas's Nebraska bill, says of the clause directly authorizing slavery to enter this territory:

> "For ourselves, we believe that the repeal of the Missouri Compromise would restore the condition of the territory, in this respect, to that of its original organization, as a colony of France and Spain; and that by Mr. Douglas's bill it would continue to be a slave territory until its local legislature should prohibit slavery by a law to which Congress should, by a formal act, assent."

This is a point of great importance, and should not be overlooked among the other grave objections to this flagitious project. By the law of the land in Louisiana, at the time we received that province from France slavery was a recognised institution with its borders. The Missouri Compromise prohibited slavery in all that part of Louisiana which lay beyond 36° 30' north latitude, the northern boundary of Arkansas. If we repeal the prohibitory clause in the Missouri Compromise, do we not restore the old state of things? If we pass an act, declaring that clause inoperative, do we not leave the law of slavery on which it operated, in its original force?

Rely upon it, this ground will be taken the moment that Douglas' bill passes. Register that bill among the acts of Congress, you will then be shown the trap which has been sprung upon you, and informed that you have made Nebraska slave territory.

The Washington *Union*, of yesterday, says:

> "They (those who oppose Mr. Douglas's bill) represent it as a movement of the advocates of slavery to legislate the institution into the Nebraska territory. This is a total misrepresentation of the provisions of the bill. As declared by Mr. Douglas in the Senate, the bill neither legislates slavery into the territory nor out of it, but it provides that it may go there or not, as the people inhabiting it may determine. It rests upon the assumption that all people of all the states have an interest in the territory, and it opens the door for all who choose to make it their home, to enter; and when there, it concedes to them the full right to regulate their internal and domestic interests for themselves.—It neither says to the slave owner that slavery will or will not exist in the territory; but it declares to him that, as it is common property, he shall not be prohibited by any action of Congress from emigrating to it; and when there he must abide by the judgement of all the inhabitants as to the continued enjoyment of his slave property."

This is what the friends of the bill say now, while the question of its passage is yet to be decided by Congress. But pass the bill, and what will they say? How will the leaders of the slave party; how will the champions of southern rights; how will the jurists and legists of the southern states then interpret the bill?

They are already contending, that the prohibition of slavery contained in the Missouri Compromise is contrary to the constitution of the United States. As soon as the bill now before the Senate shall have become a law, these men, acute and ready in the application of legal principles will come forward and say to us: "Now that we have got rid of the unconstitutional prohibition of slavery in the vast region which formed the original province of Lousiana, let us consider the effect of what we have done. By the law of the land throughout Lousiana, slavery was an established institution up to the compromise of 1820. Slavery was legalized in that part of the region which afterwards formed the state of Louisiana; slavery was the law in Arkansas; it was the law in Missouri, and under that law both Missouri and Arkansas, while in the state of territories, were settled by slave holders and their work-people. It was equally the law in Nebraska, which formed part of the province of Lousiana, and it was never supposed to be excluded or abolished there till the adoption of the Missouri Compromise. Congress has now declared the prohibition of slavery contained in that compromise to be inoperative; by doing that it leaves the ancient laws of Lousiana in the same force as if the Missouri Compromise had never been adopted. The territory reverts to its original condition; the law of slavery is revived; the two hundred slaves who are now in Nebraska are rightfully held in bondage. Planters who go to Nebraska with their slaves, will hold that species of property under the special protection of the law."

No man in his senses can doubt that this argument will be seized upon, persisted in, pressed on all occasions, in Congress, in the tribunals of law, and upon the territory itself. It is a much stronger argument than can be made for the ground which Douglas and his associates are now taking—namely, that the compromise of 1850 is superseded by that of 1850. If they force that doctrine upon the country, most assuredly they will make immediate use of the advantage it opens to them, and claim that Nebraska, from the Missouri to the Rocky Mountains, is slave territory, with the peculiar institution of the South—as they call it—existing within it in full vigor.

The more attentively the scheme proposed in Douglas's bill is viewed, the more dishonest, fraudulent and treacherous it will appear. It begins in one gross deception, and conducts infallibly to another, which its friends, for the present, keep out of sight.

NEGROES IN THE MARKET.

Negroes are, to use a mercantile phrase, quoted high. Our authority is the Mobile Daily Advertiser, an unquestionable one in the African raw material and southern staple of human flesh. It says that at Starkville, Lee county, on Tuesday last, the negroes belonging to the estate of G. S. Oglesby were sold at about an average of one thousand dollars each. The terms were one third cash, the balance at one and two years, with interest on the last payment. The best men brought about $1,500.

Negroes have brought very high prices at the public hirings, some field hands having brought as much as $250.

In fact there is quite a rage for speculation in human flesh and blood, soul and all. Negroes, says our authority, were selling at the speculation prices of '35—'36. At Selma, common field hands have hired at private hiring as high as $200 for the year, and first class negro fellows command considerably more. The most common kind of negro women hire for $150 per annum.

These, it is added, are outrageous rates, for there is no work at which such negroes can be put, by which they can realize the money, at the present high rates of provisions. It certainly is a fine time for those who have negroes to hire, but it is breaking to those who pay such prices.

Several negro girls sold, the least valuable of whom brought $900, while one, a likely girl of 12 years, brought $1,070.

The demand for "likely negro girls" must be lively when they bring a cool thousand before they have fairly got into their teens. We cannot conceive how the latter article can be made to pay at such ruinous prices. There is probably a sort of mania for likely negro girls in Alabama, and they bring, doubtless, fancy prices, like Shanghai fowls and other pets with us.

MARS WAKED UP.

Kossuth, unable any longer to rein in the fiery valor which has been consuming him, ever since he fled from Hungary without having struck one blow, for life or death, against the curs of Russia, has gone, at last, to Constantinople. 'Tis well: he's not wanted any where. But why, alas! did he not go sooner? Why wait for his friends to be more than half ruined, before he brought them a whole army in his own invincible arm? He is wrong. He keeps back that fatal reserve, his body, until the battle is irrecoverably lost. The fact is, his talent lies in setting on fights, while he himself keeps carefully out of harm's way. Indeed, he knows well what his forte is, and that he would always turn tail, at the head of an army. No man was ever more warlike in council, or more fugitive in the field. But if he be a bad leader of men's arms, he is a matchless one of their legs: it is hard to outstrip him. Nature has endowed him with many rare qualities: among others, she has given him such a delicacy of the nostrils, that he has never been able to stand the smell of gun powder. The most distant whiff of it always gives him a violent convulsion of the lower limbs. Singular to say, his arms are not at all affected by the agent.

Bah! Tell us of a patriot who thrusts his poor country on a desperate war, and then has not heart enough in him to risk for her, at the last extremity, one brave blow, one drop of his blood! Talk to us of your fugitive heroes of freedom, that rebel excellently (as if rebellion were liberty) get their poor countrymen's throats cut finely, and then fly to this country, to bellow patriotism and belch valor.—*N. O. Crescent.*

Competition is the Life of Business.—A year or two ago the Congregationalists undertook to raise a subscription of $50,000, to aid in the erection of places of worship in the new settlements and elsewhere. They succeeded in raising the amount, and something additional.—Next the New School Presbyterians, emulating this example, and desiring to surpass it, undertook to raise $100,000 for similar purposes, and are approaching the accomplishment of their object. The old Presbyterians now follow suit, and are about to raise $100,000 for church extension. Thus, these three denominations, differing in name, not much in doctrine, will make up an aggregate of a quarter of a million dollars, in the course of two years or so, for the extension of church accommodations in connection with their respective organizations. Although denominational zeal may have something to do with all this yet it cannot be doubted that it will result in much good.—*N. Y. Journal of Commerce.*

The Great Republic.—The underwriters have accepted the abandonment of this vessel, and to day she is to be paid for, and, the business settled. She will probably be sold in about a fortnight, and will very likely be converted into a steamship or a propeller. She is now entirely empty, and vessels adjacent appear very insignificant contrasted with her immense hulk.—*N. Y. Jour. Com.*

Preparing for Business.—Men were employed yesterday in cutting the ice away from the cables of the vessels that lay at the wharf of the Michigan Central Road, with a view to the removal of the vessels, and the preparation of a clear dock for the transmission of freight to the other side of the river. The Central Company have chartered J. L. Hurd & Co's. propeller, the *Princeton*, for this purpose, and she will be employed at once in transporting freight from their depot, to the Great Western cars at Windsor. A considerable quantity of freight has accumulated at the depot here, in the anticipation of the opening of the Canada thoroughfare, which will go to its destination at an early day, and we understand that in Chicago and other places west of us, there are large quantities of produce and other articles which are to be forwarded by the same route. A house in the State of New York has 40,000 bushels of wheat in Chicago, which is to be floured in this State, and forwarded through Canada at once; and yesterday morning thirty double cars were sent up empty to bring full loads of wheat now stored at Chicago, and belonging to a firm in this city, and which, either in grain or in flour, is to be sent eastward immediately. The Central Road yesterday loaded on the Great Western a freight train which goes down to-day. There is no doubt that the Canada Road will have at once all the freight business it can do.—*Detroit Inquirer of Feb. 1.*

Hollow Railway Axles.—A paper setting forth the advantages of hollow railway axles was recently read before the English Institution of Mechanical Engineers. It is stated that such axles, when manufactured in a proper manner not only possessed considerably less weight of material than the solid axles, but were much stronger and more enduring. Experiments conducted by that institution showed that where a new solid axle was bent nine and three fourths inches by a hammer, and broken at the fifth blow, a new hollow axle, with a diameter slightly exceeding the solid one, was bent but five inches at the first blow, and only broken at the twenty-ninth. Other experiments which had been tried tended to show a corresponding disparity of strength between the two kinds of axles.

A hollow axle, weighing three fifths as much as a solid one, possessed the same amount of strength. It was remarked that whatever was the nature of the strain, and the change produced by concussion, the effect of continued blows and concussion to which a railway axle was subject was greatly diminished when the axle had a large hollow through the centre, instead of being entirely solid, as the effect of a blow on one side would be mostly lost in the vacant space of the centre, intead of being all communicated through the mass of the axle. The hollow axles are being extensively applied on the Northwestern, Midland, and great Northern Railways in England, and have worked to entire satisfaction.

Advance in the Prices of Printing.—The Boston *Post* says: "The book and job printers of this city have *unanimously* agreed to raise the prices of printing, commencing the first inst.; the book printers adopting the New York prices for composition, and the same prices for press work, and the same number of impressions for a token, viz: 250, being one-half the number of impressions heretofore considered a token in this city, but which has always been the rule in New York. The job printers have also advanced their prices, but only to a fair, just and liberal scale. We hope these necessary advances will be sustained, as there is no business requiring so large an outlay that pays so small a profit. The stationers, also, we understand, have advanced thier price for printing, while some will abandon altogether the business of taking orders, leaving the customer to apply to first hands for their work. We hope our business people will hereafter, in applying for printing, bear in mind that these advances have been made to meet the necessities of the times.

Property Transferred.—The old Pearl Street Church, near Broadway, recently occupied by Rev. Mr Woods' congregation, has been purchased by the Appletons, book-publishers, for $80,000 and will probably be occupied by them for mechanical purposes connected with their business. The ground is 74 by 100 feet. The Pearl and Broome Street Presbyterian Churches have been merged into one, and Dr. Adams of the latter, having colonized up town, the avails of this sale will be used to defray the debts of both churches, amounting to $15,000 or 20,000, and two thirds of the surplus will go to the Madison Square Presbyterian Church (Dr. Adams'.) Mr. Woods' retained one third. Four lots of ground in Harlem are also to be transfered by the Trustees of the Pearl Street Church to the Trustees of the Broome Street Church,—to be used only for church purposes.

☞ As one of our fashionably dressed females was passing up Court street the other day (we quote the Boston Mail) her feet suddenly slipped from under her and she fell down. A man passing at the moment sprang and caught her just in season to secure her from striking the treacherous sidewalk with tremendous force.—Upon rising her up she could only stand upon one foot, and evidently appeared in much pain. "Have you broken it? You must have sprained your ankle." But to all his anxious inquiries as to how she was injured, she gently replied that she was not hurt. Still she hung on to the foot supported by the gentleman. He was about to speak for a hack, when all his fears were quieted by her hurridly whispering *"I have torn my—my—shirt and got my foot into it!"* In a moment the pretty foot was inside of the traces, and tripping off in a manner which showed *her opinion* of icy sidewalks.

Freight on the Underground Railroad.—Since last report we have received at this depot 21 persons, all within the last ten days. First came two men from Missouri; then 13 from Covington, Ky., five of whom escaped from the Mayor of that city; then came four from Kentucky; then two more up to this date. The Christmas holidays will bring us another fine lot. Since the above was written, we have had the pleasure of taking by the hand a fugitive from Louisville, Ky., who had made money enough to buy himself, but came to the hasty conclusion, just a few hours before he started, not to part with his money in that way, but rather to spend it in Canada for land.—*Voice of the Fugitive, Jan. 14.*

A Noble Act.—While the passengers from the G. W. R. R. were getting on board the ferry boat last evening, an elderly lady accidentally fell overboard, from the forward gangway. Hearing her scream, Mr. Jonathan Wilson, the mate of the Dart, who was on the promenade deck, at once sprang overboard and caught her as she was sinking for the last time. After some little delay they were both handed on board, nearly exhausted with the cold. When taken from the water, Mr. Wilson's limbs were numb, and it was with the greatest pain that his boots were taken off. Such praiseworthy acts should be recorded. Pass him round.—*Detroit Tribune.*

Deposition of Dr. Ives.—A document emanating from the House of Bishops, was read in the several Episcopal churches yesterday, deposing Levi Stillman Ives, D. D., from the office of Bishop of North Carolina. In the terms of the canons of the church, the House of Bishops "pronounced the said Levi Stillman Ives, D. D., *ipso facto* deposed to all intents and purposes, from the office of a Bishop of the Church of God and from all the rights, privileges, powers, and dignities thereunto pertaining."

Dr. Ives joined the Roman Catholic Church and made his submission to the Pope more than a year since.—*Buf. Rep. of Monday.*

☞ A very good one is told of a Buffalo hotel keeper. Two Erians stopped at his house, which is a first class one. They registered their names and denoted their place of residence. When the hour for retiring arrived, they were conducted to the garret, and shown two rickety bedsteads, scantily supplied with covering. Feeling somewhat for their dignity, they expostulated with the landlord, and inquired whether his house could not afford better accommodations. He replied that he certainly had much better sleeping appartments, but that they were in reserve for gentlemen. The strangers felt decidedly Erie tated.

Happy Country.—An article in the St. Paul, Minnesota, Pioneer, says:—This is one of the healthiest countries in the world; the two drug stores in St. Paul keep *preventatives* for all diseases, and the Doctors throughout the Territory, keep a common watch over the inhabitants, and at the first symptom of disease a preventative is administered. The Doctors are liable to a fine if they allow a case of sickness to occur in their district. The only disease prevalent is from natural causes, and is the result of a vacuum in the pericaraneum, directly behind the os frontis. It confined chiefly to imigrant politicians, and partially wears off as the patient becomes acclimated, and completes the cutting of his eye teeth.

Hogs Packed at Terre Haute.—We learn from the Terre Haute *Journal* that the account of the number of hogs slaughtered at that point has been cast, and the grand aggregate has been found to be 78,800! The amount packed last year was 108,000, showing a deficit for the present year of 29,200.

The number packed this year at Greencastle, and the increase at Indianapolis, the Indianapolis *Journal* thinks will account for the falling off at that place the present season.

☞ The widow of Alexander Hamilton, tho' 98 years old, still retains her faculties in an astonishing degree, and converse with ease and brilliancy. She always insists upon visitors taking a glass from General Washington's punch bowl.

☞ Men who take lodgings in the third story should always go to bed *sober.* For disregarding this needful rule, Nile Lemont had both of his ancles badly crushed in Boston on Wednesday night, by a plunge from a third story window to the sidewalk.

CHICAGO MARKET.

Office of the Chicago Daily Tribune, Thursday, February 2—7 P. M.

The stormy weather of to-day restricted out-door operations, and business among produce dealers was generally quiet. Several dealers have withdrawn from the market until rates become more settled. Prices for Spring Wheat have experienced a further decline, as will be observed by quoted sales. In all other descriptions of grain, there was hardly enough doing to test the market.

We quote sales for the day and nominal rates as follows:

FLOUR—City Mills No. 1 Ex. Sup. $6 75—No. 2 Family Flour, $6 25—No. 3 Middling Flour, $5 75—No. 4, $5 25. [illegible] is to be added to these figures for the retail rates.

Kidder's Gas Regulator.

THE SUBSCRIBER having been appointed Agent in the Sale of *Dr. Kidder's New York Patent Gas Regulator*, is now ready to receive orders from all wishing to avail themselves of its benefits, which consist in the following:—

A saving of 25 per cent. in consumption.

A steady, even, pure and mellow light.

Unhealthy consequences of escaping unconsumed Gas avoided.

Change of complexion, by disagreeable effects of Gas are avoided.

Mr. J. L. Douglass—Sir:—At your request I have carefully examined Dr. Kidder's Gas Regulator.

In the test made I found that there was a pressure of 4-10 of an inch after passing the Regulator, while we have at the Gas Works a pressure of 2 8-10. In this instance the light was steady and uniform, and I would cheerfully recommend them to all Gas consumers.

Respectfully, HENRY PARKINS,

Jan. 31, 1854. Engineer Chicago Gas Works.

Having used one of Kidder's Gas Regulators in our Store, we find it operates satisfactorily, and cheerfully recommend its general use. The pressure upon the burners is uniform, giving a steady and soft light, and saving at least 25 per cent of the amount of gas consumed. A. H. & C. BURLEY.

Manhattan Gas Works, Oct. 25, 1852.

The Gas Regulator of Dr. Kidder is, in my opinion, the most valuable instrument for regulating the flow of gas to the burners that I have ever seen.

It is correct in principle and will accomplish admirably the objects for which it was designed.

It will insure greater steadiness in the lights, and as the pressure at the meter is, by this instrument, reduced considerably below that on the street mains, it will enable the consumer to gain an equal amount of light at a smaller expenditure of gas [illegible] the greater in [illegible]

CHARLES ROOME,

Engineer Manhattan Gas Light Co.

We have Kidder's Gas Regulator, and are satisfied that, while it regulates the burning of gas, it saves in expense more than twenty-five per cent.

New York, March, 1853. ALEX. T. STEWART & CO.

We have used Kidder's Gas Regulator for some months, and find that it accomplishes perfectly the ends for which it was designed; it supplies the gas at a regular uniform pressure. The light from the Regulator is equal to that from the street burners—steady and agreeable, and, in point of economy, we save by this least 20 per cent. on the quantity of gas consumed.

As it must come into very general use, we cheerfully recommend it to the public.

(Signed) TIFFANY, YOUNG & ELLIS.

(Signed) BALL, BLACK & CO.

(Signed) SMITH & KNAPP, 254 Broadway.

Astor House, Nov. 1, 1852.

We have had Dr. Walter Kidder's Gas Regulator in use at the Astor House, for several months past. We have three Regulators attached to as many meters, (one to each) and they supply about 200 burners. The Regulators operate finely; they perfectly regulate the burning of the gas, and give as good a light, save at a less consumption, [illegible] We consequently feel very great confidence in the success of the Regulator. COLEMAN & STETSON.

LOCAL MATTERS.

Body Found.—The body of Mary Corcoran, the Irish girl who so mysteriously disappeared from the vicinity of Clark street bridge one evening in November last, was found yesterday forenoon, in the middle of the river, near the Lake House Ferry. The ice had broken considerably, and was being pushed out of the Ferry channel, when the workmen discovered a hand and part of a dress protruding from under the ice. Further search developed the body of the missing girl. No marks could be found to warrant the belief that she came to her death by foul means. It is presumed that she must have fallen off the bridge, unnoticed and unheard.—Coroner Hyde held an inquest on the corpse, and the Jury returned a verdict of "Accidental Drowning."

CHICAGO RELIEF SOCIETY.

The Board of Directors of this Society are requested to meet at the office of the Society (140 Lake St.) this, Friday, evening at 7½ o'clock.

N. S. Davis, Sec.

YOUNG MEN'S ASSOCIATION.

The undersigned declines being a candidate for the office of Recording Secretary of the Young Men's Association.

HENRY S. MONROE.

School Examination.—Parents and all others interested in the cause of education will be profited in attending the examination of the Chicago Female Seminary, which continues through to-day.

NEW PUBLICATIONS.

S. C. Griggs & Co., 121 Lake street, have laid upon our table the following new books:

ALCOHOL, and the Constitution of Man; being a popular scientific account of the chemical history and properties of alcohol, and its leading effects upon the healthy human constitution.—Illustrated by a beautifully-colored chemical chart. By Edward L. Joumans.

A WEEK'S DELIGHT, or Games and Stories for the Parlor and Fireside.

The devotees of the Temperance reform will find in the former work an admirable help to their labors, and the children will be delighted with the "Games and Stories." As we glanced over its well printed pages, we could hardly refrain from wishing that youth would come again.

John M. Van Osdell.—The public will observe, by reference to our advertising columns, that our old citizen, John M. Van Osdell, Esq., has returned "to his first love," and again taken up his residence in the city, to pursue his profession as Architect and Building Surveyor. He has also associated with him in his profession, Mr. Wm. B. Olmsted, who comes among us with the best testimonials as to his professional character.

☞ Yesterday was a very uncomfortable day. The wind blew a gale, the light falling snow flew in all directions, and it was by no means pleasant to be out of doors.

RECORDER'S COURT.

R. S. Wilson, Recorder—P. A. Hoyne, Clerk.

The case of Wm. Reese, for causing the death of constable Quinn, was resumed at 10 o'clock yesterday forenoon. The evidence was closed at noon. The arguments of counsel were concluded at 6½ o'clock last evening, and the case submitted to the Jury.

After being out about half an hour, the Jury returned a verdict of "Guilty," and fixed the term of imprisonment at *five* years in the Penitentiary.

POLICE COURT.

Before Judge Rucker.—Thursday morning, Feb. 2.

Mary Bennett, an old customer at the Watch House, and a hard disciple of whiskey. She most always enters a plea of soon leaving for Freeport, but as that excuse and her visits to the Court are too often repeated, the Judge concluded to give her a *pass* for three months at the Bridewell, with the addition of $5 fine. By the first week in May, Mary perhaps will conclude to take a different route to Freeport.

Henry Bailey, went on a *bluster* the night previous, but his silly looks and excuses would not save him from a fine of $3 and costs of the suit.

☞ W. W. Danenhower, bookseller, 123 Lake street, has received the February number of Graham's Magazine. It is worth more than the market price.

☞ St. Valentine's day is drawing near—it comes on the 14th of February. Oh! the thousands of hearts that will be lacerated then by Cupid's insulting arrows.

ALLAN PINKERTON: CHICAGO CITY MARSHAL.

We observe that Mr. Allan Pinkerton late of Dundee, in this county, is candidate for the office of City Marshal of Chicago.

Although we have ever been opposed to Mr. Pinkerton *politically*, yet we are happy to say, that in our opinion, there is not his equal, as a Police Officer, in the West. While in this county, Mr. P. served in the capacity of Deputy Sheriff, and displayed genuine shrewdness in ferreting out and arresting most of the rascals, that were brought to justice during that period.

From reports, we are satisfied, that since he moved to Chicago, he has not been equaled in the West, as a real genuine thief catcher. In a word, he is to Chicago what Vinocq was to Paris, after he was placed at the head of the Police.

Without reference to party we hope he may be elected. Such an officer will be of service to the whole Northern part of the State.—*Kane Co. Dem.*

HOLLOWAY'S PILLS FOR DEBILITATED CONSTITUTIONS, Disordered Liver and Indigestion.—The wonderful efficacy of this medicine, and the good effects it has produced on patients suffering from diseases of the stomach, liver complaints, bile and indigestion, would appear incredible, if it were not daily confirmed by proofs of the cures effected by them. The exhilarating properties of these invaluable Pills entirely banish all nervousness from the system, strengthen the tone of the stomach, thereby promoting digestion. Persons suffering from dropsy should use Holloway's Pills, as they are the most safe and certain remedy ever known for that dreadful malady. ja31

LYON'S KATHAIRON.

☞ We wish to call the attention of the public to a source of luxury, comfort and happiness—to past neglect and a present opportunity of amendment. The numerous cases of baldness in America is truly surprising. The young can not take warning, or the old apply a remedy too soon.—Who that is old, but would assure baldness? Who that is middle aged but shudders at gray hairs? Who that is young but values the luxuriant locks of youth and beauty? Still, [illegible] are stayed, and many years of otherwise [illegible] old age is regained to youth by using Lyon's Kathairon.

Lyon's Kathairon is but 25 cents, in large bottles. Sold throughout the world, by all dealers. D. S. Barnes, Proprietor, 161 Broadway, N. Y.

BALDNESS CURED.

EMERSON'S AMERICAN HAIR RESTORATIVE.

For Restoring the Hair on Heads entirely bald, and to prevent the Hair from falling, is winning golden opinions of persons who are using it. This is a new article, recently introduced, is a sure thing for Baldness, and will stand the test of a discerning public. The Proprietors have such confidence in it that they authorize their Agents to take Bald cases on GUARANTEE. Price to be agreed upon between the parties. WM. LOCAL MATTERS.

BODY FOUND.—The body of Mary Corcoran, the Irish girl who so mysteriously disappeared from the vicinity of Clark street bridge one evening in November last, was found yesterday forenoon, in the middle of the river, near the Lake House Ferry. The ice had broken considerably, and was being pushed out of the Ferry channel, when the workmen discovered a hand and part of a dress protruding from under the ice. Further search developed the body of the missing girl. No marks could be found to warrant the belief that she came to her death by foul means. It is presumed that she must have fallen off the bridge, unnoticed and unheard.—Coroner Hy—s held an inquest on the corpse, and the Jury returned a verdict of "Accidental Drowning."

CHICAGO RELIEF SOCIETY.

The Board of Directors of this Society are requested to meet at the office of the Society (140 Lake St.) this, Friday, evening at 7½ o'clock.

N. S. Davis, Sec.

YOUNG MEN'S ASSOCIATION.

The undersigned declines being a candidate for the office of Recording Secretary of the Young Men's Association.

SCHOOL EXAMINATION.—Parents and all others interested in the cause of education will be profited in attending the examination of the Chicago Female Seminary, which continues through today.

NEW PUBLICATIONS.

S. C. Griggs & Co., 121 Lake street, have laid upon our table the following new books:

ALCOHOL, and the Constitution of Man; being a popular scientific account of the chemical history and properties of alcohol, and its leading effects upon the healthy human constitution.—Illustrated by a beautifully-colored chemical chart. By Edward L. Joumans.

A WEEK'S DELIGHT, or Games and Stories for the Parlor and Fireside.

The devotees of the Temperance reform will find in the former work an admirable help to their labors, and the children will be delighted with the "Games and Stories." As we glanced over its well printed pages, we could hardly refrain from wishing that youth would come again.

JOHN M. VAN OSDELL.—The public will observe, by reference to our advertising columns, that our old citizen, JOHN M. VAN OSDELL, Esq., has returned "to his first love," and again taken up his residence in the city, to pursue his profession as Architect and Building Surveyor. He has also associated with him in his profession, Mr. WM. B. OLMSTED, who comes among us with the best testimonials as to his professional character.

☞ Yesterday was a very uncomfortable day The wind blew a gale, the light falling snow flew in all directions, and it was by no means pleasant to be out of doors.

RECORDER'S COURT.

R. S. WILSON, Recorder—P. A. HOYNE, Clerk.

The case of Wm. Reese, for causing the death of constable Quion, was resumed at 10 o'clock yesterday forenoon. The evidence was closed at noon. The arguments of counsel were concluded at 6½ o'clock last evening, and the case submitted to the Jury.

After being out about half an hour, the Jury returned a verdict of "Guilty," and fixed the term of imprisonment at *five* years in the Penitentiary.

POLICE COURT.

Before Judge RUCKER.—Thursday morning, Feb. 2.

Mary Bennett, an old customer at the Watch House, and a hard disciple of whiskey. She most always enters a plea of soon leaving for Freeport, but as that excuse and her visits to the Court are too often repeated, the Judge concluded to give her a *pass* for three months at the Bridewell, with the addition of $5 fine. By the first week in May, Mary perhaps will conclude to take a different route to Freeport.

Henry Bailey, went on a *bluster* the night previous, but his silly looks and excuses would not save him from a fine of $3 and costs of the suit.

☞ W. W. Danenhower, bookseller, 123 Lake street, has received the February number of Graham's Magazine. It is worth more than the market price.

☞ St. Valentine's day is drawing near—it comes on the 14th of February. Oh! the thousands of hearts that will be lacerated then by Cupid's insulting arrows.

ALLAN PINKERTON! CHICAGO CITY MARSHAL.

We observe that Mr. Allan Pinkerton late of Dundee, in this county, is candidate for the office of City Marshal of Chicago.

Although we have ever been opposed to Mr. Pinkerton *politically*, yet we are happy to say, that in our opinion, there is not his equal, as a Police Officer, in the West. While in this county, Mr. P. served in the capacity of Deputy Sheriff, and displayed genuine shrewdness in ferreting out and arresting most of the rascals, that were brought to justice during that period.

From reports, we are satisfied, that since he moved to Chicago, he has not been equaled in the West, as a real genuine theif catcher. In a word, he is to Chicago what Vinocq was to Paris, after he was placed at the head of the Police.

Without reference to party we hope he may be elected. Such an officer will be of service to the whole Northern part of the State.—*Kane Co. Dem.*

HOLLOWAY'S PILLS FOR DEBILITATED CONSTITUTIONS, Disordered Liver and Indigestion.—The wonderful efficacy of this medicine, and the good effects it has produced on patients suffering from diseases of the stomach, liver complaints, bile and indigestion, would appear incredible, if it were not daily confirmed by proofs of the cures effected by them. The exhilirating properties of these invaluable Pills entirely banish all nervousness from the system, strengthen the tone of the stomach, thereby promoting digestion. Persons suffering from dropsy should use Holloway's Pills, as they are the most safe and certain remedy ever known for that dreadful malady. ja31

LYON'S KATHAIRON.
☞ We wish to call the attention of the public to a source of luxury, comfort and happiness—to past neglect and a present opportunity of amendment. The numerous cases of baldness in America is truly surprising. The young can not take warning, or the old apply a remedy too soon.— Who that is old, but would avert baldness? Who that is not disguised but shudders at gray hairs? ... Lyon's Kathairon.
Lyon's Kathairon is but 25 cents, in large bottles. Sold throughout the world, by all dealers. D. S. Barnes, Proprietor, 161 Broadway, N. Y.

What good will that do a hungry one?
If I may be allowed here to relate,
I've a machine for fastening a gate—
What good is it to see a man out late?
From Cats I've a way of making Chickens,
It's a fortune in itself, "by Dickens"—
When there's no Cat, where's the Chicken-fixings?
I've discovered that which drives away pain,
Those who groan are made to laugh again;
Sir, go up ahead, you're surely the one
Who's discovered something new under the Sun!
Which is curing Tooth ache and Filling Teeth, all without giving any pain ... DR. HOLT, Dentist, 74 Lake st.

(By the Union Line)

Thirty-Third Congress.—First Session

WASHINGTON, Feb. 2.

SENATE—The committee on printing reported against the establishment of a printing office.

The House bill granting five years additional for the location of bounty lands issued for war services in 1812, was passed.

Clayton's Sandwich Islands resolution was adopted.

A resolution offered by Mr. Bright calling for the Koszta correspondence was also adopted.

The bill providing accommodation for U. S. Bounty in Mass. was passed.

After a short executive session the Senate adjourned.

HOUSE—An amendment to the House Deficiency bill appropriating $40,000 for completing the Custom House at Louisville, was passed.

Mr. Benton offered a bill appropriating $10,000 for a Custom House at St. Louis, which was passed.

A bill was also passed appropriating $12,000 for a Custom House at Wilmington, Del.

The committees reported progress.

The report of the Directors of the Philadelphia Mint was received and ordered to be printed.

NEW YORK, Feb. 2.

Alexander Halbroll, the young man claimed by the British Government on charge of forgery, was brought before Judge Ingersoll this morning, on a writ of Habeas Corpus. The Marshal made a return that he held the prisoner on the warrant of the U. S. Commissioner, under the Laws of Congress, August 12th, 1848. Mr Basterd, for the prisoner, requested until to morrow for which to traverse the return. The motion was granted, and the case adjourned to Friday, at 12.

J. L. Gates, the well-known artist of this city, died to day.

The new steamer Yankee Blade sailed to day for the Pacific, to take her place in the Independent Line.

No news of the Arabia, now due at Halifax.

BUFFALO, Feb. 2.

The Railroad men laid the track yesterday after it was torn up, but two hours afterwards, in consequence of the excitement among the people, Mayor King ordered it to be taken up again Gov. Bigler is said to be displeased with this act of the Mayor, and signified that it shall be relaid to-day. Excitement runs high, and the people seem disposed to act independently of the Governor. Yesterday, headed by Mr. Loomis, Collector of the Port, they endeavored to prevent the departure of the freight train on the Western Road. Gov. Bigler has appointed Col. Packard to take charge of the Western Road—The two Roads now run side by side. Gov. Bigler went down last evening with the intention of forming a connection, but was deterred by fear of the assembled mob. Passenger trains will run regularly from to-day, changing at Erie.

PHILADELPHIA, Feb. 2.

Ten merchants of this city subscribed ten thousand dollars each to the Erie and Sunbury Railroad.

Captains Creighton and Low at the Exchange to-day at noon, were met with a hearty reception by the committee of citizens, and presented with the testimonial proposed, including $2,000 to the former, and $1,000 to the latter.

BALTIMORE, Feb 2

The New Orleans mails of Friday have been received.

A large fleet of vessels had recently arrived at New Orleans.

The ship Hartford 90 days out, from Liverpool for Mobile, has not been heard of,—supposed to be lost

PHILADELPHIA, Feb 2

Captains Creighton and Lowe were at the Exchange to day, where they were welcomed by an immense audience. They afterwards received the greetings of the city in Independence Hall.

WASHINGTON, Feb. 2.

Business of the House this morning uninteresting.

CHARLESTON, Feb

Steamer Eagle, from Columbus, for Apalachicola, was burnt on Monday last, together with 1200 bales of cotton.

HARRISBURG, Feb. 2.

Thhe opening of the Railroad from Pottsville to this city via the Dauphin & Susquehanna Coal Co's. Road, was celebrated here to day by a large party.

BALTIMORE, Feb 2

The deputy Marshal from New York arrived here from Norfolk, having in custody a fugitive slave, who was taken from a vessel below New York.

WASHINGTON, Feb. 2.

Senator Fish gave a large party to the New York delegation last night.

Mr. Cass says that he regrets the introduction of the Nebraska bill, but he feels that he must vote for it.

BOSTON, Feb. 2

Bedini has not been in Boston yet. The burning of the effigy last evening was on the supposition that he had arrived in Boston from Cincinnati.

A MEDICINE FOR ALL SEASONS.
Wright's Indian Vegetable Pills suit all complaints and all ages, and may be taken at all times, and under all circumstances, with perfect safety. They are natural to the human constitution as food; and while they do not injure even the most delicate, there is scarcely a malady in the whole catalogue of human ills, but will yield to their influence.
Wright's Indian Vegetable Pills thoroughly cleanse the stomach and bowels from bilious and putrid humors, and purify the blood; and are, therefore, certain to drive pain or distress of every description from the body.

PENNSYLVANIA RAILROAD.

THIS ROAD BEING NOW COMPLETE, it opens a communication between Pittsburgh and Philadelphia, or PITTSBURGH AND BALTIMORE, by which Freight from the West can reach an Eastern market quicker and cheaper than by any of the present rival routes: they connect with the

DAILY PACKETS AT PITTSBURGH,

FROM

ST. LOUIS, LOUISVILLE, CINCINNATI, WHEELING,

And all the different points on the western waters, and with the CLEVELAND AND PITTSBURGH RAILROAD, and the OHIO AND PENNSYLVANIA RAILROAD AT PITTSBURGH.

Cars run through between Pittsburgh and Philadelphia without transhipment of Freight, an advantage that can be appreciated by all shippers.

In case of obstruction of navigation by ice or low water freights westward can be forwarded from Pittsburgh to Cincinnati or towns in the interior by railroad.

Chicago Female Seminary

NO'S 166, 168, & 170 CLARK ST.

A. J. SAWYER, A. M., & LADY, PRINCIPALS.

THE WINTER TERM OF THIS INSTITUTION will commence on *MONDAY, NOV. 21, 1853.* No pains have been spared to secure, for the coming year, Teachers of the highest rank in every department. Most of the former teachers will remain, while three Graduates of superior Eastern Seminaries, and teachers of acknowledged ability, have been added to the numbers.

Native teachers in German and French—the gentlemen in the latter at great expense—have been secured.

A Music Room has been provided, and the former teacher in this department will devote her whole time to the members of the institution, so that young ladies can take their music lessons without walking home, or losing recitations. An experienced Teacher will have charge of the [illegible] in Painting and Drawing.—The Principals are determined to merit the liberal patronage they are receiving. [illegible]

NOTICE TO MERCHANTS.

AT the last Session of the Board of Supervisors of Cook County, the following Resolution was adopted:

Whereas, Sundry persons have commenced Merchandising since the first day of May last, who have not listed the personal property employed by them in such business, in pursuance of Sec. 17 of the Act for the Assessment of property, and it is expedient that the public should be first notified of the provision of said Section, and that the tax on said property should be collected; it is therefore

Resolved, That the Clerk forthwith cause the said Section to be advertised in the papers of the County, and that the proper officer be instructed to enforce the provisions of the 19th Section, in case the conditions of the 17th Section are not duly complied with.

CLOTHING

RUBBER CLOTHING.

C. O. THOMPSON & CO., 127 South Water St., have just received a large supply from the Aramia India Rubber Company. The facilities of that Company for manufacturing Rubber Clothing are such that it is enabled to sell at fully forty per cent. below other establishments, and C. O. T. & CO. are jobbing at manufacturers' prices.—They call the attention of city and country dealers to this fact, and request them to call and examine for themselves.

227 **The Empire Clothing Store.** 227

E. H. HURD & CO.,

HAVE opened Store 227 Lake Street, which they are now filling with a new and complete stock of CLOTHING and GENTS. FURNISHING GOODS, and which they now offer, wholesale and retail, at such prices as defy all competition.

E. H. HURD & CO. would respectfully intimate that having a large wholesale manufactory in Connecticut, from which they daily send out to all parts of the Union, an immense supply, of every description of Clothing, they have facilities peculiar to themselves for supplying the public with a well made article, and of such style and workmanship as will insure the admiration of all who honor them with a call.

COUNTRY MERCHANTS, especially, will find it to their interest to give us a call before either making a purchase in Chicago, or proceeding to any Eastern market. We can sell at New York prices, less insurance freight, and the expense of a journey to that city. Our goods are made by first-rate workmen and at less expense than they can possibly be made in a new city. As our terms are prompt payment and small profits, none of our customers will have to pay for other people's bad debts.

E. H. Hurd & Co., intend to make their establishment really The Empire Clothing Store, which shall be worthy the patronage of Gentlemen of refined taste, and where the farmer and the mechanic will be able to obtain the cheapest and the best of Cloths.

Mark the address, 227 Lake Street near the corner of Franklin st.
